School Safety Bulletin - Niceville High School

This is a school safety bulletin being sent to the homes of Niceville High School on behalf of superintendent of schools Mary Beth Jackson. A threatening email was sent to Niceville High School about 25 minutes before dismissal today. The email claimed that toxic gas was being released in the school. Students were immediately evacuated to the school's stadium under the direction of the Okaloosa County Sheriff's Office and school administrators. While it appears the email was a hoax multiple agencies are currently involved in investigating this matter and checking air in the school. In an abundance of caution please monitor your student throughout the evening. The health and safety of our students is a top priority. When the investigation has concluded you will receive another call out. All outdoor evening events are still scheduled to take place.
