

C.W. Ruckel Middle School
Niceville, Florida
Dr. Debra Collins Goolsby, Principal

Military families can now access Tutor.com from any mobile device, including Androids! Our expanded Mobile Services give military students the ability to get a tutor from any mobile phone or tablet using our new HTML5 classroom or our existing Tutor.com To Go (TM) iOS app.

HOW TO GO MOBILE

Students must have an account with the Tutor.com for Military Families program to connect to a tutor in the HTML5 classroom or Tutor.com To Go (TM) app.

Android users can sign into their account from their mobile device just like they do from their computer, and work with a tutor in our new HTML5 classroom. For more details on how to get a tutor from any mobile device go to:

www.tutor.com/mobile

iPhone, iPad and iPod Touch users can download the Tutor.com To Go app for free in the iTunes Store:

<http://cts.vresp.com/c/?Tutor.com/192a329cf5/b1bd47dc24/0ce5d9a1ec/mt=8>.

BENEFITS OF TUTOR.COM MOBILE SERVICES

Students can now connect to a tutor for a one-to-one session or review past sessions from any mobile device. Students can take pictures of homework problems from their mobile device, store them in their mobile locker, and share items from their locker with a tutor.

Tutor.com Mobile Services is great for those times when students need to check their homework, remember a forgotten formula or ask a grammar question while on the go.

MORE INFORMATION

Read more about our expanded Mobile Services on our blog:
